¹ These accounts are non-interest bearing analysis checking accounts in which the earning credit offsets a portion of the banking service charges.

² Beginning on February 2, 2016, ERMA's claims account was converted to a zero-balance account with a sweep arrangement to the general operating account. The negative balance represents the total outstanding checks as of the end of the quarter.

NET INCOME	284,094	--	 3,527,296

- Contributions for the 2024/25 program year are higher than the prior year, due to an increase in payroll and the addition of new members.
- Total interest earned from liquidity and investment accounts is approximately \$1.2 million. Realized gains of \$17,000 and unrealized gains of \$785,000 boosted total investment income to \$2 million, a \$400,000 increase over the prior year of \$1.6 million.
- Claim expenses were \$9.2 million and \$4.9 million through March 31, 2025, and 2024, respectively. The increase in year over year is primarily due to a \$5.3 million increase to reserves in 2024/25 as compared to 2023/24.
- Operating expenses are higher than the prior year due to contractual increases, mainly in program management, and an increase in Capital Fund Expenditures.

6.2. INVESTMENT POLICY

EMPLOYMENT RISK MANAGEMENT AUTHORITY INVESTMENT POLICY Revised February 2024

SCOPE

This investment policy applies to activities of the Employment Risk Management Authority (Authority) with regard to investing the Authority's financial assets.

OBJECTIVES

It is the objective of this policy to provide a system which will accurately monitor and forecast revenues and expenditures so that the Authority can invest funds to the fullest extent possible. Funds of the Authority will be invested in accordance with all applicable California Government Code sections and with sound treasury management principles. The primary objectives, in order of priority, of the Authority's investment program shall be:

1. Safety. Safety of principal is the foremost objective of the investment program. The Authority's investments shall be undertaken in a manner that seeks to ensure preservation of capital in the overall portfolio.
2. Liquidity. The Authority's investments will remain sufficiently liquid to enable the Authority to meet its reasonably anticipated cash flow requirements.
3. Yield. The Authority seeks to attain market rates of return on its investments, consistent with constraints imposed by law, its safety objectives, and its cash flow consideration.

DELEGATION OF AUTHORITY

The Treasurer is authorized by the Authority's Board of Directors to manage the investment needs of the Authority. This delegation of authority will be made annually. The Treasurer may delegate his/her investment decision-making and execution authority to an investment advisor. The advisor shall follow the investment policy, herein stated, and such other written instructions as are provided.

The Treasurer and the delegated staff acting in accordance with this Investment Policy and written procedures and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations are reported in a timely fashion and appropriate action is taken to control adverse developments.

PRUDENCE

The Treasurer is a fiduciary and shall manage the investment portfolio of the Authority under the Prudent Investor Standard which states, in essence, that “a trustee shall act with care, skill, prudence, and diligence under circumstances then prevailing, including, but not limited to, the general economic conditions and the anticipated needs of the agency, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the agency.” The application of this rule leaves open a broad spectrum of investment opportunities as long as the investment is deemed prudent and is permissible under currently effective legislation of the State of California and this policy.

ETHICS AND CONFLICTS OF INTEREST

Officers and employees involved in the investment process shall refrain from personal business activities that could conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions.

INTERNAL CONTROLS

The Treasurer shall establish a system of internal controls to regulate the activities of internal staff and any external investment advisors, if any. No person may engage in an investment transaction except as provided under the terms of this Policy and the procedures established by the Treasurer.

REPORTING

The Treasurer shall submit a monthly report of investment transactions, if any, that is in accordance with California Government Code §53607. In addition, on a regular basis, the Treasurer shall provide the governing body with a report that shall disclose, at a minimum, the following information about the risk characteristics of Authority’s portfolio: A listing of Authority assets showing par value, cost, and market value of each security, type of investment, issuer name, credit quality, coupon rate, and yield to maturity at cost. This report shall also include a statement of compliance with the investment policy, including a schedule of any transactions or holdings which do not comply with this policy or with the California Government Code, if any, including a justification for their presence in the portfolio and a timetable for resolution, and a statement that the Authority has adequate funds to meet its cash flow requirements for the next six months.

These reports shall also contain any additional information as is requested by the governing body.

DELIVERY AND SAFEKEEPING

All trades, where applicable, will be executed by Delivery vs. Payment (DVP). This ensures that securities are deposited in the eligible financial institutions prior to the release of funds. All securities in the Authority’s portfolio shall be held in third party custody in the Authority’s name and control by a third-party bank trust department, acting as agent for Authority under the terms of a custody agreement executed by the bank and the Authority. The only exception to the

foregoing shall be depository accounts and securities purchases made with: (i) local government investment pools; (ii) time certificates of deposit, and (iii) money market mutual funds, since the purchased securities are not deliverable. Written evidence of each of these investments will be held by the Treasurer.

AUTHORIZED FINANCIAL DEALERS AND INSTITUTIONS

Purchase and sale of securities shall be made on the basis of competitive bids and offers with a minimum of three quotes being obtained, when practical. It shall be the Authority's policy to purchase securities only from those authorized institutions and firms. No deposit of public funds shall be made except in a qualified public depository as established by state laws.

The Treasurer shall maintain a list of authorized broker/dealers and financial institutions that are approved for investment purposes. At a minimum, the firm must be financially sound and have been in business a minimum of three years. In addition, the firms must provide: proof of Financial Industry Regulatory Authority ("FINRA") registration, trading resolutions, proof of state registration or exemption, and certificate of having read the Authority's investment policy. If an external investment advisor is authorized to conduct investment transactions on the Authority's behalf, the investment advisor may use their own list of approved broker/dealers and financial institutions for investment purposes.

ELIGIBLE SECURITIES AND CRITERIA

Security purchases and holdings must be maintained within statutory limits imposed by the California Government Code subject to any additional limitations imposed by this Investment Policy. In the event an apparent discrepancy is found between this Investment Policy and the Government Code, the more restrictive parameters will take precedence.

The portfolio shall be diversified by security type and institution to avoid incurring unreasonable and avoidable risks regarding specific security types or individual financial institutions.

Percentage holding limits and minimum credit rating requirements listed in this section apply at the time the security is purchased. In the event a security held by the Authority is subject to a rating change that brings it below the minimum credit ratings specified in this Policy, the Authority shall require investment advisors engaged in the investment of Authority funds to notify Authority staff of the downgrade, and provide a plan of action to address the downgrade. The course of action to be followed will then be decided on a case-by-case basis, considering such factors as the reason for the change, prognosis for recovery or further rate drops, and the market price of the security.

Except as provided below, no more than five percent (5%) of the Authority's portfolio may be invested in any one institution, regardless of sector. The types of investments which are excluded from this limitation are:

- United States Treasury and federal agency/government sponsored enterprise (GSE) obligations,

- Obligations of the International Bank for Reconstruction and Development (IBRD), International Finance Corporation (IFC), and the Inter-American Development Bank (IADB), and
 - Money market funds and local government investment pools, including LAIF and CAMP.
- A. **U.S. Treasury Issues.** United States Treasury notes, bonds, bills, or certificates of indebtedness, or those for which the faith and credit of the United States are pledged for the payment of principal and interest. There is no limitation as to the percentage of the portfolio that may be invested in this category.
- B. **Federal Agency Securities.** Federal agency or United States government-sponsored enterprise obligations, participations, or other instruments, including those issued by or fully guaranteed as to principal and interest by federal agencies or United States government-sponsored enterprises. There is no limitation as to the percentage of the portfolio that may be invested in this category. However, purchases of Federal Agency mortgage-backed securities issued by or fully guaranteed as to principal and interest by government agencies are limited to a maximum of 20 percent of the portfolio.
- C. **Municipal Debt Issues.** Registered treasury notes or bonds of this or any of the other 49 United States, including bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by a state or by a department, board, agency, or authority of this state or any of the other 49 United States.

Bonds, notes, warrants, or other evidences of indebtedness of any local agency within this state, include bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by the local agency, or by a department, board, agency, or authority of the local agency.

Purchases are limited to securities rated in a rating category of “A”, or its equivalent or better, by a Nationally Recognized Statistical Rating Organization (“NRSRO”).

- D. **Repurchase Agreements.** Repurchase agreements are to be used solely as short-term investments not to exceed 30 days. The Authority may enter into repurchase agreements with primary government securities dealers rated in a rating category of “AA” or its equivalent or better by an NRSRO. Counterparties should also have (i) a short-term credit rating of at least A-1/P-1; (ii) minimum assets and capital size of \$25 billion in assets and \$350 million in capital; (iii) five years of acceptable audited financial results; and (iv) a strong reputation among market participants.

The following collateral restrictions will be observed: Only U.S. Treasury securities or Federal Agency securities, as described in A and B above, will be acceptable collateral. All securities underlying repurchase agreements must be delivered to the authority’s custodian bank versus payment or be handled under a properly executed tri-party repurchase agreement. The total market value of all collateral for each repurchase agreement must equal or exceed 102 percent of the total dollar value of the money invested by the Authority for the term of the investment. For any repurchase agreement with a term of more than one

day, the value of the underlying securities must be reviewed on an on-going basis according to market conditions. Market value must be calculated each time there is a substitution of collateral.

The Authority or its trustee shall have a perfected first security interest under the Uniform Commercial Code in all securities subject to repurchase agreement. The Authority shall have properly executed a Master Repurchase Agreement with each counter party with which it enters into repurchase agreements.

A maximum of 25 percent of the portfolio may be invested in this category.

- E. **Commercial Paper.** Commercial paper of “prime” quality of the highest ranking or of the highest letter and number rating as provided for by a NRSRO. The entity that issues the commercial paper shall meet all of the following conditions in either paragraph (1) or (2):

(1) (A) Is organized and operating in the United States as a general corporation. (B) Has total assets in excess of five hundred million dollars (\$500,000,000). (C) Has debt other than commercial paper, if any, that is rated in a rating category of “A” or its equivalent or higher, by an NRSRO.

(B) Has program wide credit enhancements including, but not limited to, overcollateralization, letters of credit, or a surety bond. (C) Has commercial paper that is rated “A-1” or higher, or the equivalent, by an NRSRO.

Eligible commercial paper shall have a maximum maturity of 270 days or less. A maximum of 25 percent of the portfolio may be invested in this category.

- F. **Banker’s Acceptances.** Banker’s acceptances issued by domestic or foreign banks, which are eligible for purchase by the Federal Reserve System. Purchases of banker’s acceptances may not exceed 180 days maturity. Eligible banker’s acceptances are restricted to issuing financial institutions with short-term paper rated in the highest category by an NRSRO. Investments in banker’s acceptances are further limited to 40% of the portfolio.

- G. **Medium-Term Notes.** Medium-term notes, defined as all corporate and depository institution securities with a maximum remaining maturity of five years or less, issued by corporations organized and operating within the United States or depository institutions licensed by the United States or any state and operating within the United States. Eligible investment shall be rated in a rating category of “A” or its equivalent or better by an NRSRO. A maximum of 30 percent of the portfolio may be invested in this category.

- H. **Negotiable Certificates of Deposit.** Negotiable certificates of deposit (NCDs) issued by a nationally or state-chartered bank, a savings association or a federal association, a state or federal credit union, or by a federally- or state-licensed branch of a foreign bank. Eligible negotiable certificates of deposit shall be rated in a rating category of “A” for long-term, “A-1” for short-term, their equivalent or better by an NRSRO. A maximum of 30 percent

of the portfolio may be invested in this category.

- I. **Time Certificates of Deposit.** Time Certificates of Deposit (TCDs) placed with commercial banks and savings and loans with offices in California. The amount on deposit shall not exceed the shareholder's equity in the financial institution. To be eligible for purchase, the financial institution must have received a minimum overall satisfactory rating for meeting the credit needs of California Communities in its most recent evaluation, as provided in Government Code Section 53635.2. TCDs are required to be collateralized as specified under Government Code Section 53630 et. seq. The Treasurer, at his discretion, may waive the collateralization requirements for any portion that is covered by federal insurance. The Authority shall have a signed agreement with the depository per Government Code Section 53649. TCDs may not exceed 1 year in maturity. A maximum of 20 percent of the portfolio may be invested in this category.
- J. **State of California Local Agency Investment Fund ("LAIF").** The Authority may invest a portion of its portfolio in LAIF, subject to the statutory deposit limit imposed by LAIF. Whenever the Authority has any funds invested in LAIF, a copy of LAIF's Answer Book shall be maintained on file for due diligence. In addition, the Treasurer should review the LAIF's summary portfolio holdings on a quarterly basis.

- b) Purchase of securities authorized by this paragraph shall not exceed 20 percent of the portfolio.

PROHIBITED INVESTMENTS

Any investment in a security not specifically listed in the Eligible Securities and Criteria section above, but otherwise permitted by the Government Code, is prohibited without the prior approval of the Board.

As provided in California Government Code Section 53601.6, the Authority shall not invest any funds in inverse floaters, range notes, mortgage derived, or interest-only strips or in any security that could result in zero interest accrual if held to maturity, except that, in the event of, and for the duration of, a period of negative interest rates, the Authority may invest in securities issued by, or backed by, the United States government that could result in zero- or negative-interest accrual. Per 53601.6, these limitations shall not apply to shares of beneficial interest issued by diversified management companies registered under the Investment Company Act of 1940 (15 U.S.C. Sec. 80a-1 et seq.) that are authorized for investment pursuant to subdivision (l) of Section 53601.

MAXIMUM MATURITIES

It is the objective of the Authority to accurately monitor and forecast revenues and expenditures so that the Authority can invest funds to the fullest extent possible. Funds of the Authority will be invested in accordance with sound treasury management principles.

Where this Policy does not specify a maximum remaining maturity at the time of the investment, no investment shall be made in any security, other than a security underlying a repurchase agreement, that at the time of the investment has a term remaining to maturity in excess of five years, unless the Board has granted express authority to make that investment either specifically or as a part of an investment program approved by the Board no less than three months prior to the investment.

PERFORMANCE STANDARDS

The investment portfolio shall be designed with the objective of obtaining a rate of return throughout budgetary and economic cycles, commensurate with the investment risk constraints and the cash flow needs.

POLICY REVISION

This policy can be revised whenever necessary and will be reviewed by the Board annually at a public meeting.

Appendix A Glossary

Asset-backed securities (ABS): As referenced in item N under the “Eligible Securities and Criteria” section of this policy, ABS are securities whose income payments and hence value is derived from and collateralized (or "backed") by a specified pool of underlying assets which are receivables. Pooling the assets into financial instruments allows them to be sold to general investors, a process called securitization, and allows the risk of investing in the underlying assets to be diversified because each security will represent a fraction of the total value of the diverse pool of underlying assets. The pools of underlying assets can comprise common payments credit cards, auto loans, mortgage loans, and other types of assets. Interest and principal is paid to investors from borrowers who are paying down their debt.

Bankers' Acceptances: A bankers' acceptance is a time draft drawn on and accepted by a bank for payment of the shipment or storage of merchandise. The initial obligation of payment rests with the drawer, but the bank substitutes its credit standing for that of the borrower and assumes the obligation to pay face value at maturity.

Broker-Dealer: A broker-dealer is a person or a firm who can act as a broker or a dealer depending on the transaction. A broker brings buyers and sellers together for a commission. They do not take a position. A dealer acts as a principal in all transactions, buying and selling for his own account.

Certificate of Deposit (CDs): CDs are receipts for funds deposited in a Bank or Savings and Loan Association for a specified period of time at a specific rate of interest. The first \$250,000 of a certificate of deposit is guaranteed by the Federal Deposit Insurance Corporation (FDIC) if with a bank. Nonnegotiable CDs with a face value in excess of \$250,000 can be collateralized by Treasury Department Securities, which must be at least 110% of the face value of the CDs in excess of the first \$250,000, or by the first mortgage loans which must be at least 150% of the face value of the CD balance in excess of the first \$250,000. Negotiable CDs are marketable securities; they are not collateralized.

Collateral: Collateral is securities, evidence of deposits, or other property that a borrower pledges to secure repayment of a loan. It also refers to securities pledged by a bank to secure deposits. In California, repurchase agreements, reverse repurchase agreements, and public deposits must be collateralized.

Commercial Paper: Commercial paper is a short-term unsecured obligation issued by both financial companies and nonfinancial companies to help satisfy their short-term funding needs.

Issuer: Any corporation, governmental unit, or financial institution that borrows money through the sale of securities.

Liquidity: The ease and speed with which an asset can be converted into cash without loss of value. In the money market, a security is said to be liquid if the difference between the bid and asked prices is narrow and reasonably sized trades can be done at those quotes.

Local Agency Investment Fund (LAIF): LAIF is a voluntary program offering local agencies the opportunity to participate in a multi-billion dollar portfolio. LAIF is part of the State of California's Pooled Money Investment Account (PMIA). Oversight of the PMIA is provided by a board whose members include the State Treasurer, Director of Finance, and the State Controller. All securities are purchased under the authority of the California Government Code.

Market Value: The price at which a security is trading and could presumably be purchased or sold.

Maturity: The date upon which the principal or stated value of an investment becomes due and payable.

Medium-Term Notes (MTNs): MTNs are unsecured promissory notes issued by corporations and financial institutions. MTNs are typically issued through a shelf registration process filed with the SEC, with original maturities of one to five years. MTNs offer higher yields than Treasury or agency securities because of the additional risk of purchasing unsecured corporate debt for a period of years. Credit quality varies with the issuer, and MTNs are typically rated by an NRSRO.

Money Market Funds: Pooled investment funds, which legally are shares of beneficial interest issued by diversified management companies registered with the Securities and Exchange Commission. Money market funds operate under strict guidelines regarding maximum maturities and diversification requirements.

Principal: The original cost of a security. It represents the amount of capital or money that the investor pays for the investment.

Repurchase Agreement: Repurchase Agreements are a contractual arrangement between a financial institution or dealer and an investor. This agreement normally can run for one or more days. The investor puts up his funds for a certain number of days at a stated yield. In return, he takes a given block of securities as collateral. At maturity, the securities are repurchased and the funds repaid plus interest.

U.S. Government Agency Issues: U. S. Government Agency issues include securities which fall into these categories: 1) Issues which are unconditionally backed by the full faith and credit of the United States, 2) Issues which are conditionally backed by the full faith and credit of the United States, and 3) Issues which are not backed by the full faith and credit of the United States.

Issues which are unconditionally backed by the full faith and credit of the United States include the Small Business Administration (SBA) and the General Services Administration (GSA).

Issues which are not backed by the full faith and credit of the United States include the Federal National Mortgage Association (FNMA), Federal Home Loan Bank (FHLB), Farm Credit System, Banks for Cooperation (Co-ops), Federal Lands Banks (FLB), Federal Immediate Credit Banks (FICB), and the Federal Home Loan Mortgage Corporation (FHLMC).

While all of the above issues are not unconditionally backed by the full faith and credit of the United States, they do in fact have de facto backing from the federal government, and it would be most unlikely that the government would let any of these agencies default on its obligations.

U.S. Instrumentalities: U.S. Instrumentalities are formed by two or more central governments (one of which must be the United States) with the purpose of promoting economic development for the member countries. U.S. Instrumentalities finance their activities by issuing debt. Examples of U.S. Instrumentalities include the International Bank for Reconstruction and Development (IBRD), the International Finance Corporation (IFC), and the Inter-American Development Bank (IADB). Similarly to government bonds, the bonds issued by these institutions are considered direct obligations of the issuing nations and have a high credit rating.

U.S. Treasuries:

U.S. Treasury Bills: U.S. Treasury bills, commonly referred to as T-Bills, are short-term marketable securities sold as obligations of the U.S. Government. They are offered in three-month, six-month, and one-year maturities. T-Bills do not accrue interest but are sold at a discount to pay face value at maturity.

U.S. Treasury Notes: U.S. Treasury Notes are marketable, interest-bearing securities sold as obligations of the U.S. Government with original maturities of one to ten years. Interest is paid semi-annually.

U.S. Treasury Bonds: U.S. Treasury Bonds are the same as U.S. Treasury Notes, except they have original maturities of ten years or longer.

Yield to Maturity: Yield to Maturity (YTM) is the rate of income return on an investment, minus any premium above par or plus any discount with the adjustment spread over the period from the date of the purchase to the date of maturity of the bond.

Dear Valued in2vate Client,

Recently, AAI Solutions acquired the assets of in2vate and iLearningEngines (“iLE”). We are excited by the opportunity to serve the existing clients of in2vate, while investing in product enhancements to further expand our reach in the insurance industry.

AAI Solutions is a new company which was set-up by investors in iLE and in2vate who believed in the solutions and wanted to continue their expansion. Over the next few months, we anticipate hiring most of the personnel with whom you have previously worked. Our desire is to make the transition as seamless as possible for our customers.

We understand that the last few months have caused uncertainty as iLE passed into bankruptcy. The perfecting of our acquisition of the assets should be completed by Wednesday, May 7. Our desire is to maintain the level of service and the relationships which you previously had with as little disruption as possible.

Over the next 30 days, we will be working closely with each of you to formally transition to AAI Solutions. This process will help us ensure we have the right team and resources in place to support you effectively.

ELECTION OF OFFICERS FOR PROGRAM YEARS 2025/26 AND 2026/27

SUBJECT: Nomination and Election of President
Presented by Rob Kramer, Executive Director

RECOMMENDATION: *Staff recommends the Board of Directors nominate and elect a President, Vice President, and Treasurer to serve through June 30, 2027.*

BACKGROUND AND STATUS:

Pursuant to Article VI, Section A, of the ERMA Bylaws:

“The President, Vice President, and Treasurer/Auditor shall be elected, as individuals, from among the Representatives to the Board of Directors and serve for a term of two years.

Voting for officers will be conducted at the Board meeting immediately preceding July 1. Each Representative shall cast one vote for each office. The Board or Executive Committee may designate a nominating committee to facilitate this process. The candidate receiving a plurality of votes for the particular office will be elected and will assume the office upon his/her election. In the event of a tie vote, with no candidate receiving a plurality, those not involved in the tie vote will be eliminated and the remaining candidates will draw lots.”

Presently, John Gillison, California Intergovernmental Risk Authority (CIRA), serves as President, Linda Cox, Municipal Pooling Authority (MPA), serves as Vice President, and Jeremy Wittie, Coachella Valley MVCD (VCJPA), serves as Treasurer. All have indicated their interest in serving additional terms for their respective offices.

This time is reserved for the Board of Directors to nominate and elect candidates for the offices of President (5.A.), Vice President (5.B), and Treasurer (5.C) to serve July 1, 2025, through June 30, 2027.

GOVERNANCE MATTERS

SUBJECT: Nomination and Election of Executive Committee Member
Presented by Rob Kramer, Executive Director

RECOMMENDATION: *Staff recommends the Board of Directors elect the slate of Executive Committee Members following nominations of the one at-large Representative, for a two-year term from July 1, 2025, through June 30, 2027.*

BACKGROUND AND STATUS:

The ERMA Bylaws, Article IX, outlines the process for establishing and electing an ERMA Executive Committee. The President, Vice-President, and Treasurer/Auditor are elected by the Board in odd-numbered years and are automatically appointed to the Executive Committee.

Pursuant to the Bylaws, the two additional at-large representatives to the Committee are elected in even-numbered years.

Jason Castleberry, Bay Cities Joint Powers Insurance Authority (BCJPIA), Human Resources Director, City of Union City, currently serves as one of the At Large Members, and his term has one year remaining. Presuming that Linda Cox Municipal Pooling Authority (MPA) is voted in by the Board as the ERMA Vice President for a two-year term, this will leave her previous at-large position vacant. This position should be filled by the Board for the one-year remaining on that at-large position term.

Mr. Rob Thompson, the General Manager for the WestCat Transportation District, representing the CalTIP JPA on the Board of Directors has expressed interest in this position.

Nominations may be made from the floor.

Once nominations are closed, the Board should elect and fill the remaining at-large representative position for the remaining one year of the original two-year term.

GOVERNANCE MATTERS

SUBJECT: Appointment of Finance Manager
Presented by Rob Kramer, Executive Director

RECOMMENDATION: *Staff recommends the Board of Directors appoint Sarah Thurston as Finance Manager, effective Jun 2, 2025.*

BACKGROUND AND STATUS:

In November of 2024, ERMA's previous Finance Manager, Chee Xiong, gave notice she would be moving on from Sedgwick. Subsequent to this announcement, Ms. Xiong was already on maternity leave, and Nancy Broadhurst began serving as interim Finance Manager to ERMA. Ms. Broadhurst has done an amazing job serving as ERMA's interim Finance Manager, bringing a wealth of knowledge as she previously served as Finance Manager for ERMA.

Once Ms. Xiong announced her departure from Sedgwick, the Sedgwick Finance team began recruiting for her replacement. Ms. Sarah Thurston was selected and began her tenure with Sedgwick and on ERMA on March 10, 2025. Ms. Thurston is a Finance Manager within the Sedgwick accounting department and has over 12 years of experience in the accounting and finance industry. She holds a bachelor's degree from California State University, Sacramento, and is currently working towards obtaining her MBA. ERMA's Finance Manager will transition from the current interim Finance Manager, Nancy Broadhurst, to Sarah Thurston over the next few months.

Staff recommends the Board appoint Ms. Thurston as ERMA's Finance Manager, effective immediately.

FINANCIAL MATTERS

SUBJECT: Review of Annual Retrospective Adjustment Calculation
*Presented by Nancy Broadhurst, Interim Finance Manager, and
Sarah Thurston, Incoming Finance Manager*

RECOMMENDATION: *Staff recommends the Board of Directors approve a release of surplus in the amount of \$1,500,000 from program years 2014/15, 2016/17, 2017/18, and 2018/19 to establish a non-equity fund with the purpose of having this fund remain in ERMA and accrue investment earnings to offset any loss of income suffered by moving to the process of ERMA paying all claims from Dollar One (\$1). Staff further recommends no additional monies be returned to the members for eligible program years.*

BACKGROUND AND STATUS:

Per the Financial Stability Plan (Plan), the retrospective adjustment calculation is reviewed annually by the Board of Directors. The Plan allows for a Retrospective Adjustment Process (Process) to occur and a return of surplus contributions if certain conditions are met. The following depicts the Process as outlined in the Plan:

Is the program's overall net position positive with liabilities stated at the 90% confidence level?

YES

Surplus may be eligible for
program years > 5 years old.

Surplus limited in each program
year to amount over 90%
confidence level.

Surplus reduced for deficits in
program years < 5 years old.

Total net position must remain at
90% after the return of surplus.

NO

Surplus not eligible.

Assessment may be levied.

Agenda Item 7. A., Page 2

The following chart summarizes the retrospective adjustment results as of March 31, 2025, and the proposed surplus to release:

Program years 2014/15, 2016/17 and 2017/18 each have one open claim while the 2018/19 program year has nine open claims. The 2018/19 program year yields \$1,298,943 in available surplus; however, the available surplus is reduced by \$382,560 to submit a total dividend release in the amount of \$1,500,000.

SUBJECT: Excess Coverage and Marketing Update for the 2025/26 Program Year - *Presented by Seth Cole, Alliant*

RECOMMENDATION: *None.*

BACKGROUND AND STATUS:

Mr. Seth Cole will provide an overview of the market and the renewal proposals with RSUI and Ascot, ERMA's likely excess insurance carriers, for the 2025/26 program year.

Mr. Cole will be present to review the proposed renewal terms and answer any questions from the Committee.

Employment Risk Management Authority (ERMA) Renewal Proposal: July 1, 2025-2026

Dear Rob:

We are pleased to present our renewal proposal for ERMA's optional Excess Employment Practices Liability program effective July 1, 2025. RSUI currently provides \$2,000,000 in limits Each Claim per Member (with a \$4,000,000 per Member Aggregate, and \$10,000,000 Policy Aggregate) excess of ERMA's Retained Limit of \$1,000,000. Ascot Specialty Insurance Company provides \$1,000,000 in limits per Member per Claim with a \$1,000,000 per Member Aggregate and a \$5,000,000 Policy Aggregate excess of the RSUI policy. The total excess limits are \$3,000,000 Each Claim per Member (with a \$5,000,000 per Member Aggregate, and \$15,000,000 Policy Aggregate) excess of ERMA's Retained Limit of \$1,000,000.

We were successful in negotiating a flat rate renewal for both layers at the expiring limit structure. The renewal premium for RSUI is \$494,179 and the renewal premium for Ascot is \$203,957. Both layers represent a 6.6% increase over the expiring premium contemplating the existing membership. Member payroll for this optional coverage increased \$76,814,173 (6.6%). As usual, the premium can be adjusted up or down based on final payroll figures and adding or removing any members.

We look forward to answering any questions you or the Board may have.

Sincerely,

Seth Cole, ARM

NY Regulation 194

Alliant Insurance Services, Inc. is an insurance producer licensed by the State of New York. Insurance producers are authorized by their license to confer with insurance purchasers about the benefits, terms and conditions of insurance contracts; to offer advice concerning the substantive benefits of particular insurance contracts; to sell insurance; and to obtain insurance for purchasers. The role of the producer in any particular transaction typically involves one or more of these activities.

Compensation will be paid to the producer, based on the insurance contract the producer sells. Depending on the insurer(s) and insurance contract(s) the purchaser selects, compensation will be paid by the insurer(s) selling the insurance contract or by another third party. Such compensation may vary depending on a number of factors, including the insurance contract(s) and the insurer(s) the purchaser selects. In some cases, other factors such as the volume of business a producer provides to an insurer or the profitability of insurance contracts a producer provides to an insurer also may affect compensation.

The insurance purchaser may obtain information about compensation expected to be received by the producer based in whole or in part on the sale of insurance to the purchaser, and (if applicable) compensation expected to be received based in whole or in part on any alternative quotes presented to the purchaser by the producer, by requesting such information from the producer.

NRRA:

The Non-Admitted and Reinsurance Reform Act (NRRA) went into effect on July 21, 2011. If a change is required, we will promptly notify you. Any additional taxes and/or fees must be promptly remitted to Alliant Insurance Services, Inc.

Guarantee Funds

Established by law in every state, guaranty funds are maintained by a state's insurance commissioner to protect policyholders in the event that an insurer becomes insolvent or is unable to meet its financial obligations. If your insurance carrier is identified as 'Non-Admitted', your policy is not protected by your state's Guaranty Fund.

Claims Reporting:

Your policy will come with specific claim reporting requirements. Please make sure you understand these obligations. Contact your Alliant Service Team with any questions.

Claims Made Policy:

This claims-made policy contains a requirement stating that this policy applies only to any claim first made against the Insured and reported to the insurer during the policy period or applicable extended reporting period. Claims must be submitted to the insurer during the policy period, or applicable extended reporting period, as required pursuant to the Claims/Loss Notification Clause within the policy in order for coverage to apply. Late reporting or failure to report pursuant to the policy's requirements could result in a disclaimer of coverage by the insurer.

Any Employment Practices Liability (EPL) or Directors & Officers (D&O) with EPL coverage must give notice to the insurer of any charges / complaints brought by any state / federal agency (i.e. EEOC and similar proceedings) involving an employee. To preserve your rights under the policy, it is important that timely notice be given to the insurer, whether or not a right to sue letter has been issued.

Changes and Developments

It is important that we be advised of any changes in your operations, which may have a bearing on the validity and/or adequacy of your insurance. The types of changes that concern us include, but are not limited to, those listed below:

- Travel to any state not previously disclosed.
- Permanent operations outside the United States, Canada or Puerto Rico.
- Mergers and/or acquisition of new companies and any change in business ownership, including percentages.
- Any newly assumed contractual liability, granting of indemnities or hold harmless agreements.
- Any changes in existing premises including vacancy, whether temporary or permanent, alterations, demolition, etc. Also, any new premises either purchased, constructed or occupied
- Circumstances which may require an increased liability insurance limit.
- Any changes in fire or theft protection such as the installation of or disconnection of sprinkler systems, burglar alarms, etc. This includes any alterations to the system.
- Immediate notification of any changes to a scheduled of equipment, property, vehicles, electronic data processing, etc.
- Property of yours that is in transit, unless previously discussed and/or currently insured.

Certificates / Evidence of Insurance

A Certificate or Evidence is issued as a matter of information only and confers no rights upon the certificate holder. The certificate does not affirmatively or negatively amend, extend or alter the coverage afforded by a policy, nor does it constitute a contract between the issuing insurer(s), authorized representative, producer or recipient.

You may have signed contracts, leases or other agreements requiring you to provide this evidence. In those agreements, you may assume obligations and/or liability for others (Indemnification, Hold Harmless) and some of the obligations that are not covered by insurance. We recommend that you and your legal counsel review these documents.

In addition to providing a Certificate or Evident of Insurance, you may be required to name your landlord, client or customer on your policy as a loss payee on property insurance or as an additional insured on liability insurance. This is only possible with permission of the insurance company, added by endorsement and, in some cases, an additional premium.

By naming the certificate holder as additional insured, there are consequences to your risks and insurance policy including:

- Your policy limits are now shared with other entities; their claims involvement may reduce or exhaust your aggregate limit.
- Your policy may provide higher limits than required by contract; your full limits can be exposed to the additional insured.
- There may be conflicts in defense when your insurer has to defend both you and the additional insured.
- An additional insured endorsement will most likely not provide notification of cancellation. Some insurance companies use a “blanket” additional insured endorsement that provides coverage automatically when it is required in a written contract. Most insurance companies do not want to be notified of all additional insureds when there is a blanket endorsement on the policy. If a notice of cancellation is required for the additional insured party, you must notify us immediately and we will request an endorsement from your insurance company. There may be an additional premium for adding a notice of cancellation endorsement for an additional insured.

SUBJECT: Review of Administrative and Operating Budget for the 2025/26 Program Year
Presented by Sarah Thurston, Incoming Finance Manager

RECOMMENDATION: *Staff recommends the Board of Directors approve the Proposed Administrative and Operating Budget for the 2025/26 Program Year, with losses funded at the 80% confidence level and discounted at 2.0%.*

BACKGROUND AND STATUS:

The proposed budget reflects the final funding for losses, excess insurance costs, loss prevention and training, and administrative expenses for the 2025/26 program year. The following table presents the proposed budget as compared to the April preliminary and expiring year budgets.

Ascot (\$1M xs of \$3M)	0.0175	0.0184	-4.8%	0.0175	0.0%

The following is an overview of the various budget components.

Funding for Losses – SIR to \$1.0 Million

- The loss funding amount required to cover the ultimate cost of claims within the self-insured layer is estimated by ERMA's Actuary and based on historical loss experience, member payroll, and any other factors that may impact the overall cost of claims.
- The Board selects the confidence level (CL) and discount rate annually. For the 2025/26 program year, staff recommends the Board set the funding rates at the 80% CL and utilize a discount factor of 2.0%, the same as expiring.
- Funding for Losses is \$11.2 million and \$10.1 million for the 2025/26 and 2024/25 years, respectively, an 11.4% increase over the prior year's approved budget. This is primarily due to an increase in payroll of 8.8%, a 3.1% increase in the pooling rate at the 80% CL, and the addition of two new members.

Excess Insurance

- ERMA members may opt into the program's optional excess coverage of \$2M excess of the \$1M pooled layer through RSUI, followed by an additional \$1M excess of \$3M through Ascot.
- Rates for both excess layers remain flat over the expired rates.

Loss Prevention and Training Expenses

- ERMA's loss prevention and training expenses are \$291,000, a 26.0% increase over the expiring program year.
- The Sedgwick In-House and Outside Customized Trainings line items have been combined in this year's budget, and reflect a decrease of \$40,000, or 23.9%. Actuals in this line item have been considerably under budget for the past couple of years, therefore the budget in this line item is reduced.
- Staff is anticipating training to expand in the upcoming program year and has added two new line items budgeted for \$50,000 each – Elected Officials Training, and Regionalized Leadership Training.

Administrative Expenses

- The 22.0% increase in administrative expenses is based on standard increases to contracts and anticipated increased costs of several non-contractual expenses.
- The program admin fee has increased by 23.4%, which includes the 3.1% CPI index inflator, two staffing increases, and the addition of two new members, mitigated by a reduction due to the withdrawal of Santa Maria in ERMAC last year. The staffing changes are noted in the Program Admin Fee page, Page 4 of the budget. Staff will discuss the staffing increases during the budget presentation.
- Included in the budget is a line item for the Captive Feasibility Study to be conducted by Bickmore Actuarial as directed by the Board.

Discount Rate Selection

- The funding rates are discounted to net present value, which reduces the rate to reflect investment income expected to be earned on those contributions over time.
- Staff and the ERMA Investment advisor met in January 2024 to review the investment earnings rate and recommended an increase in the discount rate to 2.0% from 1.5% for the 2024/25 operating budget.
- The 2.0% discount rate is reflected in the 2025/26 budget as well.

Experience Modification Factors

- Experience modification factors (ex-mods) are applied to the contribution and adjust the contribution based on the loss experience of members.
- The ex-mods are based on incurred losses between \$25,000 and \$500,000 as of December 31, 2024, from program years 2020/21 through 2023/24 and payroll from calendar years 2019 through 2022.
- ERMA's two-tiered ex-mod calculation is as follows:
 - ✓ JPA Ex-Mods: Ex-Mods are calculated at the JPA-level and applied in determining each JPA or Individual Member's contribution to ERMA.
 - ✓ Underlying Member Ex-Mod: The experience modifier of each underlying member is used to determine the underlying member's contribution to its JPA. The calculation utilizes the "pure" ex-mod rather than the credibility-factored ex-mod utilized in the primary JPA calculation and has a floor of 0.75 and a ceiling of 1.50.
 - ✓ An additional calculation limits annual ex-mod changes to .25 for underlying members.

Payroll

- Actual 4Q 2023 – 3Q 2024 payroll used in the 2025/26 budget represents a change from calendar year payroll used historically and is the exposure base used to determine member contributions.
- Payroll increased by 8.8% over the prior year.

Membership Changes

The following membership changes that occurred after the Final 2024/25 Budget was approved are reflected in the proposed budget:

- Withdrawal of Santa Maria in ERMAC as of 7/1/2024
- Dissolution of ERMAC and Hayward reclassified to Individual Member status
- Addition of Hesperia RP&D in PERMA effective 7/1/2024
- Addition of Parlier in CSJVRMA effective 1/1/25

New members for the 2025/26 program year are included in the proposed budget for the Board's consideration and approval:

- The Town of Hillsborough in PLAN JPA
- LPPD in BCJPIA

FINANCIAL MATTERS

SUBJECT: Review of Dollar One Administration of Claims
Presented by Rob Kramer, Executive Director, and Nancy Broadhurst,
Interim Finance Manager

RECOMMENDATION: *Staff recommends the Board of Directors:*

- 1) Approve the plan to have ERMA begin managing all payments on claims from dollar one (\$1) beginning on July 1, 2025.*
- 2) Distribution of a dividend at July 1, 2025 (to be determined in June 2025) of \$1.5M to form a non-equity pool to minimize the loss of investment income.*

BACKGROUND AND STATUS:

At the ERMA Annual Workshop in January, staff discussed with the Board the possibility of having ERMA manage all payments on claims from dollar one rather than the current hand-off of responsibilities once the underlying member satisfies its SIR.

The Executive Committee reviewed Staff's plan at the April 4, 2025, meeting. To ensure all stakeholders are educated and aware of the proposed new process and can ask questions about the prospective changes, ERMA held two training sessions on the potential modification to the current process as follows:

1. **ERMA Vendor Partners** on Tuesday, May 20, 2025, from 1 p.m. to 3 p.m.
2. **ERMA Members and JPA administrative staff** on Wednesday, May 28, 2025, from 1 p.m. to 3 p.m.

During these trainings, ERMA Staff presented the proposed new process, answered questions, and distributed a Frequently Asked Questions (FAQ) flyer following each call. Mr. Rob Kramer, ERMA Executive Director, has prepared a Memorandum to the Board of Directors outlining Staff's findings and recommendations.

SUBJECT: Moving to Claims Payments from Dollar One by ERMA

CURRENT STATUS

Currently, ERMA's underlying members all select a Self-Insured Retention (SIR) from the following options:

- \$25,000 per occurrence
- \$50,000 per occurrence
- \$75,000 per occurrence
- \$100,000 per occurrence
- \$150,000 per occurrence – **NEW OPTION FOR 2025-26**
- \$250,000 per occurrence
- \$500,000 per occurrence

The underlying member is responsible for submitting all bills to ERMA for review and input to the ERMA claims system.

The underlying member (or in three instances the primary JPA Member) is then responsible for paying all invoices until the member SIR has been satisfied.

CURRENT ISSUES AND CONCERNS

- The review and input of all billings into the ERMA claims system is relatively straight forward. However, because there are different ways in which the SIR's are paid, there can be delays in notifying the underlying members/Members to proceed with paying invoices within their SIR layer.
- There is often some confusion and back and forth, as to how much the underlying member or Member has paid on their (SIR). There also can be confusion as to when ERMA will take over the payments on the claim.
- Sometimes there are duplicate payments on invoices where an underlying member/Member makes payments on claims where ERMA also makes payment.

ANALYSIS

At the most recent ERMA annual workshop, staff proposed and discussed with the group, the possibility of having ERMA make all payments on claims from dollar one (\$1) and then billing the underlying member/Member back for their respective SIRs.

From an operational standpoint, this would NOT change the role of the Litigation Management department with respect to their review and input of all bills into the ERMA claims management system.

However, this change WOULD require additional time spent by the Accounting Team with respect to a significant increase in accounts receivable transactions as well as development and operation of a system to bill members/Members for their SIRs on a routine basis.

In addition, having ERMA pay all claims from dollar one (\$1), would increase ERMA claims payments by approximately \$2,500,000 on average per year. This is not “new” money, but rather taking on the responsibility of what the members/Members have traditionally paid directly to satisfy their respective SIRs for each claim.

Without some additional process or procedure in place, this would result in ERMA losing out on approximately \$115,000 per year (on average) in investment earnings. This would also impact ERMA cash flow.

RECOMMENDATIONS

Based on a thorough internal review of this matter, staff is making the following recommendations to the Executive Committee for presentation to the Board and implementation as of July 1, 2025:

1. ERMA to begin making ALL payments on claims from dollar one (\$1) as of July 1, 2025.
2. ERMA to work with Sedgwick to alter the scope of the current ERMA contract to provide this service, and to add approximately .5 FTE at the staff accountant level to accomplish this change.
3. ERMA transfer \$2,500,000 in current Net Position to a “non-equity ERMA SIR DEPOSIT Fund”. This would keep this amount of previous Net Position in the ERMA program to ensure there is no loss of investment income.

Making this new fund a “non-equity” fund would mean the current ERMA members would forfeit their current right to their equity positions in this fund for the good of the JPA.

If the program was ever unwound or disbanded, these funds would be returned to the ERMA members based on the same pro-rata formula in which they are currently

allocated.

- a. Current Net Position at the Expected Confidence level as of June 30, 2024 was \$19,290,095.
4. The ERMA accounting team would begin invoicing members/Members for their SIR once a claim is closed (if under \$25,000), or at \$25,000 increments until a member/Member SIR is satisfied.

FINANCIAL MATTERS

SUBJECT: Underlying Member SIR Review and Policy for Mandated Increases for 2026/27
Presented by Rob Kramer, Executive Director, and Nancy Broadhurst, Interim Finance Manager

RECOMMENDATION: *Staff recommends the Board of Directors approve engaging the Actuary to complete an MRL/SIR study every three years. Staff further recommends that all underlying members who meet all three criteria for an increase in the study have their SIR's increased one level in the next program year.*

BACKGROUND AND STATUS:

At the January Board of Directors meeting, the Board reviewed a study from Bickmore Actuarial related to Member Retained Limits (MRLs) within the ERMA program. The purpose of the study was to determine if underlying members were properly situated with respect to their self-insured retentions (SIR)s within the program.

The Study reviewed retentions based on three different approaches (Size, Burn, and Member Equity/Frequency). Based on feedback from the Board, as well as further internal review, Staff makes the recommendation above. Not listed in the recommendation is whether or not the members highlighted in the table attached should be asked to make a change for July 1, 2025, or July 1, 2026. Staff will make a recommendation on this matter after further discussion with the Executive Committee.

TO: Select ERMA Members

FROM: Rob Kramer, Executive Director

SUBJECT: Member SIR Increases as Directed by the ERMA Board of Directors

At the January ERMA Board of Directors meeting, the Board reviewed a study from Bickmore Actuarial related to Member Retained Limits (MRLs) within the ERMA program.

The purpose of the study was to determine if underlying members were properly situated with respect to their self-insured retentions (SIR)s. The study reviewed retentions based on three different approaches (Size, Burn, and Member Equity/Frequency).

Based on feedback from the Board, as well as further internal review and direction from the Executive Committee, it was determined all underlying members that *meet all three criteria* for an increase in the study, have their SIR's increased one level in the 2026/27 program year.

You are receiving a copy of this memorandum as your entity is one of the members that meets the aforementioned criteria. As such, your ERMA SIR will increase from \$25,000 to \$50,000 as of July 1, 2026.

This change is over a year away, but we wanted to inform you of this important change now.

This increase in SIR should reduce your overall contribution to ERMA, but of course your entity will now have a higher SIR per claim.

As a courtesy, we have included a copy of the study for your review. If you have any questions regarding this new policy and how it will impact your participation in ERMA, please reach out to me directly at rob.kramer@sedgwick.com, (916) 995-9391.

Best regards,

Rob Kramer
Executive Director

2. The current 7-day yield is the net change, exclusive of capital changes and income other than investment income, in the value of a hypothetical fund account with a balance of one share over the seven-day base period including the statement date, expressed as a percentage of the value of one share (normally \$1.00 per share) at the beginning of the seven-day period. This resulting net change in account value is then annualized by multiplying it by 365 and dividing the result by 7. The yields quoted should not be considered a representation of the yield of the fund in the future, since the yield is not fixed.

Glossary

- **Accrued Interest:** Interest that is due on a bond or other fixed income security since the last interest payment was made.
- **Agencies:** Federal agency securities and/or Government-sponsored enterprises.
- **Amortized Cost:** The original cost of the principal of the security is adjusted for the amount of the periodic reduction of any discount or premium from the purchase date until the date of the report. Discount or premium with respect to short-term securities (those with less than one year to maturity at time of issuance) is amortized on a straight line basis. Such discount or premium with respect to longer-term securities is amortized using the constant yield basis.
- **Asset-Backed Security:** A financial instrument collateralized by an underlying pool of assets – usually ones that generate a cash flow from debt, such as loans, leases, credit card balances, and receivables.
- **Bankers' Acceptance:** A draft or bill of exchange accepted by a bank or trust company. The accepting institution guarantees payment of the bill as well as the insurer.
- **Commercial Paper:** An unsecured obligation issued by a corporation or bank to finance its short-term credit needs, such as accounts receivable and inventory.
- **Contribution to Total Return:** The weight of each individual security multiplied by its return, then summed for each sector to determine how much each sector added or subtracted from the overall portfolio performance.
- **Effective Duration:** A measure of the sensitivity of a security's price to a change in interest rates, stated in years.
- **Effective Yield:** The total yield an investor receives in relation to the nominal yield or coupon of a bond. Effective yield takes into account the power of compounding on investment returns, while nominal yield does not.
- **FDIC:** Federal Deposit Insurance Corporation. A federal agency that insures bank deposits to a specified amount.
- **Interest Rate:** Interest per year divided by principal amount and expressed as a percentage.
- **Market Value:** The value that would be received or paid for an investment in an orderly transaction between market participants at the measurement date.

**SUBJECT: An Introduction to the Benefits of Captives – Consideration of ERMA
Captive - Presented by: Mike Harrington, Bickmore Actuarial
Michael Kronbetter PFM Management, LLC
Rob Kramer, Executive Director**

RECOMMENDATION: *Provide feedback and direction to Staff.*

BACKGROUND AND STATUS:

At the ERMA Annual Workshop and Board of Directors meeting in January of this year, the Board of Directors discussed the possibility of creating a captive for the ERMA program. This was memorialized as one of the goals for the ERMA program in the current program year.

For the year ended June 30, 2024, ERMA had \$38.6 million in total assets and \$27.1 million in long-term investments in the program.

Staff believes it is important for the ERMA Board to analyze the possibility of developing an insurance captive. The main purpose of the captive would be to allow the group more flexibility with respect to the investment of CARMA funds. A captive insurance company could serve as a vehicle for investing a portion of the pool's funds in other types of investment classes (beyond what the group is currently limited to by the CA investment code). Numerous California risk-sharing pools have created captives in recent years to expand their investment options.

The first stage in the exploration process involves gaining a deeper understanding of the purpose and functions of a captive, the organizational structure, benefits and costs, and reviewing next steps.

Potential next steps include conducting a feasibility study and using the results to determine whether implementation of a captive should be pursued.

Mike Harrington, Bickmore Actuarial, as well as Michael Kronbetter from PFM Asset Management will be in attendance to provide general information on captives and answer initial questions from the ERMA Board.

Agenda

- Coverage options
- Investment considerations
- Overview of process to establish a captive
- A sneak peek at some numbers

Inflation

It's Not That Bad...Is It??

Prices Are High

But...Some Prices Are Decreasing

Emphasize Stability

WHAT INFLATION?

THE SAME AS IT DID LAST MONTH.**

Put A Positive Spin on Increases

What is a Captive?

- Special purpose insurance company (legal entity) formed to insure the risk of its parent
- Formalized way of allowing business to assume more of their own risk
- Self-insurance. But transfers risk of loss from parent to captive.
- Regulated by its domiciliary state

Why Use a Captive?

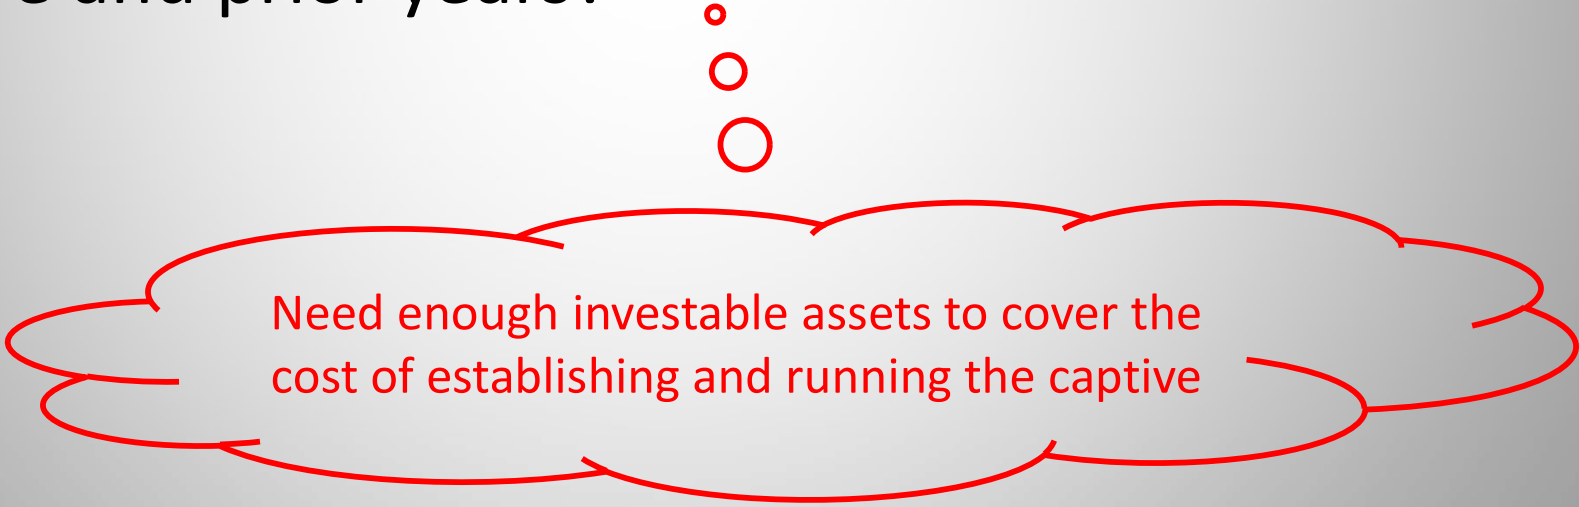

- Very Similar to Self-Insurance Model
 - Just a new way of doing the same thing you already do!
- Benefits of Captive
 - Flexibility in Investments
 - Flexibility in Coverage Options
 - Access to Reinsurance Markets
 - Low Regulation

Salient Features of a Captive

- Additional accounting, investment and actuarial work
- Potential for greater investment returns in long run
- Potential for greater investment volatility in short run!
 - Long term decision!
- Regulatory scrutiny
 - File an annual statement
 - Surplus is required to support any exposure
- Invested assets < captive assets < JPA assets

Coverage Options

- Which coverage(s)?
- Which program year(s)?
- Future years only?
- Future and prior years?

Need enough investable assets to cover the cost of establishing and running the captive

For the intermediate term (up to 5 years), our capital market assumptions derive from our assessment of current economic conditions, including corporate profits, balance sheets, etc., and current valuations for various asset classes. Our long-term assumptions are derived using an economic building block approach that projects economic and corporate profit growth and takes into consideration the fundamental factors driving long-term real economic growth, our expectation for inflation, productivity and labor force growth.

Purpose of the Feasibility Study

- Determine retained risk and scenarios for loss projections.
- Project captive revenues and expenses (including operating costs, claims administration expenses, taxes, licensing and other fees, investment income, loss payouts etc.).
- Recommend appropriate premium strategy.
- Calculate required capital levels.
- Populate five-year forecasts of income statement, balance sheet items and cash flows for various scenarios of assumptions (expected and adverse).

SCOPE OF SERVICES

Thank you for the opportunity to provide this proposal for actuarial services to Employment Risk Management Authority (ERMA). ERMA is seeking professional actuarial advice regarding its insurance program. The objective of this study is to counsel ERMA on the feasibility of establishing a captive insurance company to provide risk financing and investment options for the insurance programs.

Our report will discuss the following considerations in establishing a captive:

- Benefits of transferring risk to a captive, rather than retaining by risk pool
- Review alternative risk financing options
- Review the structure and governance of a captive
- Consideration of potential regulation of government risk pools
- Review of the benefits of various domiciles for the captive
- Financial projections compared to existing pool
- Increased investment returns
- Cost savings by underwriting across coverage programs (liability, workers' compensation, property, etc.)
- Sell coverage to other pools and public entities
- Reduction in funding requirements of risk pool
- Write buffer layer(s) to access market capacity
- Write unique coverages
- Timeline and key tasks for establishment of the captive

Specifically, we see the analysis of captive feasibility proceeding in two phases:

- Feasibility: Survey of domiciles, analysis of basic formation issues, and preparation of preliminary feasibility study.
- Implementation: Development of business plan and implementation timeline, preparation of feasibility study for regulatory submission, and assistance proceeding through the implementation.

We will enlist the services of Dick Huntington from the Huntington Group to assist with the analysis. He has many years of experience in the Captive industry, including development, implementation, and consulting.

PHASE 1 - FEASIBILITY

Phase 1 of this project will consist of a survey of the likely domiciles, an analysis of basic formation issues, and a preliminary feasibility study. We understand there are three possible purposes for the captive:

- To accept only the exposures and risks of ERMA.
- To accept the exposures and risks of the members of ERMA.
- To accept the exposures and risks from outside ERMA and its members.

We will provide comparisons of domiciles in following locations:

- Utah
- Nevada
- Arizona
- Hawaii
- District of Columbia

Qualitative comparisons will be made across the following categories:

- Regulatory issues (permitted business, corporate form, meeting requirements, etc.);
- Premium taxes and fees;
- Capitalization requirements;
- Taxation issues, if any; and
- Investment restrictions.

A preliminary *quantitative* analysis of captive feasibility will be made in the following areas:

- Startup costs (e.g. application fees, incorporation fees, license fees, renewal fees, minimum premium, required capitalization);
- Annual operating costs (e.g. renewal fees, captive management, financial audit, travel costs);
- Expected cost of insuring coverages that would be put in the captive; and
- Five-year forecast of pro-forma financial statements.

Additionally, we will:

- Address the likely form of the captive (e.g. mutual, stock or reciprocal);
- Discuss a governance structure for the captive;
- Cover other pertinent issues.

PHASE 2 - IMPLEMENTATION

Phase 2 of this project will consist of development of a business plan and implementation timeline, preparation of a feasibility study for regulatory submission, and assistance proceeding through the implementation.

The following topics will be considered and evaluated:

- Business plan development. A business plan will be required to establish the purpose of the captive, including coverages to be offered.
- The Cost of services to be provided. These costs could be fees to service providers or increase in internal administrative costs for tasks associated with the captive. These services would include accounting, underwriting, risk management, claim management and regulatory reporting.
- Policy issuing. There could be a need to engage a commercial insurance company to issue the insurance policy to the insureds, or the newly formed captive could issue the policy directly.
- Capital and/or surplus requirements. The selected domicile will have minimum capital and surplus requirements; however, additional to surplus which may be appropriate to maintain a financially stable organization.
- Excess or reinsurance requirements. The combination of premium flow, surplus, and need to meet regulator's guidelines will determine the need for and attachment points of excess or reinsurance to support limits provided by the captive.
- Cost comparisons. Direct cost comparisons will be prepared for the various alternatives to demonstrate the current and future cost differences. Cost comparisons will also include recognition for the time value of expenses and income.
- Actuarial forecast of losses. A forecast of losses at various confidence levels will be developed and used in the comparison of the existing programs versus the captive program.
- Pro forma financial statements will be prepared for the captive alternatives.
- Development of an implementation timeline with key milestones.
- Assistance with meetings with legal and regulatory bodies, as well as captive application completion.

We will prepare a report summarizing the above information and conclude with a recommendation, or recommendations, as to the feasibility of creating a captive insurance company for the risks of ERMA and its members. The recommendations will be presented with sufficient background and supporting information for review and consideration by the leadership of ERMA and its members.

The timeline involved for both Phase 1 and Phase 2 can vary greatly depending upon the extent of domiciles investigated for feasibility and timing of board decisions and direction. Typically, twelve months should be sufficient to complete both phases. Phase 1 takes three to six months, while Phase 2 takes an additional three to twelve months.

EMPLOYMENT RISK MANAGEMENT AUTHORITY
MASTER PROGRAM DOCUMENT
FOR THE
POOLED EMPLOYMENT PRACTICES LIABILITY PROGRAM
(PEPLP)

ARTICLE I - GENERAL

A. PURPOSE

1. The primary purpose in forming the Employment Risk Management Authority, hereinafter *ERMA*, is to create a method for providing coverage for legal damages incurred by the *Members* because of *Wrongful Employment Practices*. The Joint Exercise of Powers Agreement and the Bylaws have been created and duly approved to provide the *Members* with this coverage. This *Master Program Document*, hereinafter the MPD, for the Pooled Employment Practices Liability Program, hereinafter the PEPLP, sets forth the manner in which these services shall be delivered to the membership. In the event of a conflict among these governing documents, the Joint Exercise of Powers Agreement controls over the Bylaws, and the Bylaws control over this MPD.
2. The PEPLP shall use pooled sharing of operating costs and losses above the *Members' Retained Limits*. The PEPLP may purchase excess coverage or reinsurance above those limits provided by ERMA.
3. The PEPLP shall provide various *Retained Limits* from which the *Members* may choose, subject to the approval of the *Board of Directors*.
4. The *Board of Directors* has the right to alter the terms and conditions of the pooled underlying coverage in response to the needs and abilities of the PEPLP, the *Members*, and the availability of coverage from outside sources.
5. A summary of the *Limits of Coverage* and *Retained Limits* provided in *Program Years* is set forth in Appendix B.

B. PROGRAM YEARS

1. A *Program Year* shall be defined as the losses incurred during the period from 12:01 a.m. Pacific time on July 1st of each year to 12:00am Pacific time on June 30th of the following year. The income and expenses of each *Program Year* shall be accounted separately from any other *Program Year's*

Commented [RK1]: No changes needed here to add the \$150K SIR as it is already broad enough. We WILL need to send a notice to the members that there is a new SIR option following the April EC meeting.

income or expenses.

2. The PEPLP shall charge a *Deposit Contribution* to each *Member* at inception of each *Program Year* to fund the cost of losses and expenses anticipated for the life of the *Program Year*. The *Deposit Contribution* shall consist of a contribution to cover pooled losses, based on an actuarial projection of losses for the year and the exposure of loss presented by each *Member* plus a reasonable margin for contingencies, as well as *administrative expenses* and training expenses based on expected costs.
3. After a *Program Year* is at least five years old, *Retrospective Adjustments* may be made annually, subject to the discretion of the Executive Committee or the *Board*, and subject to criteria set forth in this MPD. The process for determining *Retrospective Adjustments* is set forth in Appendix A.
4. A *Program Year* cannot be completed until all *Claims* incurred during that *Program Year* are closed and it is probable that no new *Claims* for that *Program Year* will be made. The *Program Year* shall remain open until the *Board of Directors* authorizes closure based on its determination that known *Claims* for the year are closed, and no further *Claims* will be made.
5. To maintain the actuarial soundness of the PEPLP, the *Board of Directors* shall have actuarial studies done periodically and shall take appropriate action, as set forth in Article III – Contributions, Rates and *Assessments*, if a *Program Year* is found to be actuarially deficient.

C. FINANCING THE PROGRAM

1. DEPOSIT CONTRIBUTIONS

Deposit Contributions shall be established as set forth in Article III.A.1.

2. CAPITAL CONTRIBUTION

In addition to the *Deposit Contribution*, in ERMA's early years, each *Member* was required to make a capital contribution annually for the first five years of participation, which equated to 15% of loss funding contribution collected, to provide a margin for greater confidence in the program and to build a fund that could be used for program years in need. The capital contribution was equal to the *Board*-approved capitalization rate per \$100 of payroll and was paid over a five-year period. All original funds have been allocated.

The capital contribution fund was reactivated in 2014 to receive funds dedicated to future training initiatives.

Capital contributions will not be dedicated to any one specific *Program Year*, but will be considered when determining the overall actuarial soundness of the PEPLP. The capital contribution amounts will be maintained in a separate equity account and will be returned in the same proportion as the return of other equity at the discretion of the *Board of Directors*. Capital contributions may be applied at the discretion of the *Board of Directors* to any *Program Year*.

3. NON-EQUITY FUNDS

The *Board of Directors*, at its discretion, may create one or more non-equity funds to support the operations of the ERMA program. A non-equity fund is a pool of dollars that *Members* have no specific equity rights to while those funds are being utilized on behalf of the organization as a whole. A non-equity fund can be funded either through the budget process or through the return of equity in the Retrospective Adjustment process.

3.4 BONDS OR DEBT INSTRUMENTS AND CAPTIVES

(a) Bonds or other debt instruments may be used to fund one or more *Program Years*. However, *Members* shall be responsible only for the retirement of such debt for the *Program Years* in which they participate. Such retirement of debt shall be calculated into the rates and deposit contributions.

(b) Upon a two-thirds vote of the *Board of Directors*, debt financing can be authorized for any legal purpose; however, any debt so incurred shall be the debt of *ERMA* and not the debt of any *Member*, unless each *Member*, in writing, authorizes the debt and accepts responsibility for its payment.

(c) Any monies collected or earned by *ERMA* may be used to retire such debts.

~~(e)(d)~~ The *Board of Directors* as the ability to may, in its discretion, form a captive insurance company in a domicile outside of California if it is deemed beneficial to *ERMA*.

4.5 ASSESSMENTS

Assessments may be made at the discretion of the *Board of Directors*, when the PEPLP, as a whole, is found to be actuarially unsound. *Assessments* shall be determined as set forth in Article III, C. 2.

Formatted: Font: Italic

D. AMENDMENTS TO THIS MASTER PROGRAM DOCUMENT

1. This MPD may be amended by a two-thirds vote of the Executive Committee or *Board of Directors*, provided prior written notice has been given to the *Members*.
2. The *Members* may repeal such amendments by a majority vote at the next regular or

special meeting of the *Board* after the effective date of the amendment.

ARTICLE II - COVERAGE

A. GENERAL DESCRIPTION

1. COVERAGE PROVIDED

The Memorandum of Coverage, and any endorsements thereto, shall provide the terms, conditions, limitations and exclusions for the defense and indemnification of covered parties, as defined, for liability because of *Wrongful Employment Practices*. The Memorandum of Coverage shall be reviewed annually and approved by the *Board of Directors*.

Formatted: Indent: Left: 0"

- (a) An account shall be established from which losses and expenses of the PEPLP shall be paid. Although the intent of the PEPLP is to provide pooled coverage, coverage may be obtained, either partly or wholly, from commercial insurance or reinsurance if it is to the financial advantage of the PEPLP as determined by the *Board of Directors*. In making its determination, the *Board* shall consider the objectives of security, minimizing costs to the PEPLP, and the desire of the *Members* for a particular type of coverage. Any such commercial insurance shall have an A.M. Best Rating Classification of A or better and an A.M. Best Financial Rating of VII or better, or their equivalents.

2. LIMITS OF COVERAGE

- (a) The PEPLP shall provide, where economically practical, *Limits of Coverage* of at least \$2,000,000 per occurrence.
- (b) The *Board of Directors* may authorize choices of limits less than \$1,000,000 by the *Members*.

3. RETAINED LIMITS

- (a) The pooled coverage shall be excess of the *Retained Limits* as recommended by the Administrator, chosen by each *Member*, and approved by the *Board of Directors*. The Administrator shall consider, among other factors, the financial needs of the *Members* when establishing the choices of *Retained Limits*. The *Board of Directors* may alter the choices of *Retained Limits*, increase *Retained Limits* for *Members* which do not substantially comply with elements of the PEPLP, and institute Aggregate Stop Loss coverage, as described below, or other forms of retentions as the financial strength of the PEPLP dictates.
- (b) The *Board of Directors* may offer annual aggregate limitations to the repeated cost of the *Retained Limit* payments by a *Member* in any *Program*

Commented [RK2]: This is likely already broad enough to encompass any change to requiring members to increase their SIR if they meet those thresholds in the actuarial study and discussed at the workshop. We just need to finalize what the actual trigger(s) will be.

Commented [DRA3R2]: Agree.

Year. This form of coverage shall be called Aggregate Stop Loss and is further defined in Article II, A, 3, (b).

- (c) A participating *Member* may elect to change its *Retained Limit* after its first year in the program, but any request to lower a *Retained Limit* is effective only with approval of the *Board of Directors*. Any change in the *Retained Limit* shall be for a complete *Program Year* and must be received by the *Board of Directors* at least thirty (30) days prior to the inception of the new *Program Year* in which the change is to be effective.

Commented [RK4]: Not sure if it is necessary to mandate that new members join the program at no less than a \$50K SIR. Maybe better that it be an informal Board policy so that exceptions can be made if need be?

The *Board of Directors* may require a *Member* to increase its *Retained Limit* at the inception of a new *Program Year* by providing written notice of such change to the *Member* at least sixty (60) days prior to the increase.

Formatted: Indent: Left: 0"

Commented [RK5]: See comment above, this is already broad enough and its likely it is better to keep it like this rather than be more specific

- (d) Each *Member* shall bear the costs of its *Claims*, including defense and related costs, including but not limited to attorneys' fees, investigation costs, expert costs, vendor costs and any other related costs up to the amount of its *Retained Limit*. This expense shall be borne by the individual *Member* to the extent such costs are not limited by an *Aggregate Stop Loss*. *Members* shall report all payments made within their *Retained Limits* to ERMA to ensure efficient claims control and actuarial analysis.

~~(e)~~ The *Board of Directors*, at its discretion, may choose to set up a system whereby ERMA pays all costs from the inception of any *Claims*, and charges the individual *Member* back at scheduled intervals for amounts paid within the *Member's Retained Limit*. This in no way alters the responsibilities of a *Member* in 3 (d) above.

Formatted: Indent: Left: 1.58", No bullets or numbering

Formatted: Font: Italic

Formatted: Font: Italic

4. COVERAGE TERM, RENEWAL, AND CANCELLATION

The coverage term shall be the same period of time as the *Program Year*. Cancellation of coverage by withdrawal of a *Member* shall be permitted only at the end of any *Program Year*. The timing of cancellation of coverage by expulsion of a *Member* shall be as determined by the *Board of Directors*.

B. MEMORANDUM OF COVERAGE

1. The President shall appoint a Coverage Committee, which may consist of up to three (3) members of the *Board of Directors*. The members of the Committee shall remain as members until such time as the President relieves them of their duties. Each year, prior to the last *Board of Directors* meeting of the *Program Year*, the Committee shall review, as necessary, the Memorandum of Coverage and recommend changes, where appropriate, for the next *Program Year*. The Committee shall consider the desires of the *Members* for coverage as well as the financial impact such coverage may have on the PEPLP. The *Board of Directors* shall evaluate and, if appropriate, approve the recommendations of the Committee and adopt the Memorandum of Coverage for the next *Program Year* prior to or at the last regular or special meeting of the expiring *Program Year*.
2. The *Board of Directors* shall evaluate and, if appropriate, approve the recommendations of the Committee and adopt the Memorandum of Coverage for the next *Program Year* prior to or at the last regular or special meeting of the expiring *Program Year*.

Notwithstanding Section B.1., above, the *Board of Directors* may, from time to time, amend the coverage provided in the Memorandum of Coverage, purchase excess insurance or reinsurance, or participate in other pooling arrangements authorized by the Government

Formatted: Indent: Left: 0.58", No bullets or numbering

Code, based on the needs of the PEPLP and the *Members*, costs, funding, available insurance, and other relevant factors.

C. DISTRIBUTION

A copy of this MPD and the current Memorandum of Coverage shall be provided to each *Member* in each year that changes are adopted. All endorsements or other changes to the PEPLP shall be distributed to the *Members as made*. All documents shall be deemed to be provided to the *Member* if the representative for the *Member* personally receives a copy of such document, if the document has been duly mailed in the U.S. Postal system, or if the document is posted to the official ERMA website and notice thereof has been mailed in the U.S. Postal system or sent via email to the *Member*.

ASSESSMENTS**

A. ADMINISTRATIVE EXPENSES, TRAINING EXPENSES AND DEPOSIT
CONTRIBUTION CALCULATIONS

1. DEPOSIT CONTRIBUTIONS

- (a) The Administrator, in conjunction with an actuary, shall annually establish rates and *Deposit Contributions*, subject to *Board* approval, adequate to fund the actuarially determined losses in the pooled layer of the PEPLP, including defense costs and other claims-related expenses, the cost of excess coverage, and the projected administrative costs and training costs, including retirement of debt, if any, of the PEPLP.
- (b) The annual *Deposit Contribution* for each *Member* shall be calculated utilizing (1) the actuarially determined expected losses for the PEPLP, (2) a capital contribution during the first five years of participation equal to or exceeding 15% of the amount needed to cover defense and indemnity (if applicable – required in ERMA’s early years, but not currently applied), (3) a charge for excess insurance or reinsurance, if any, (4) a charge for the *Administrative Expense* of the PEPLP, and (5) a charge for the Training Expense of the PEPLP as determined by the Administrator.
- (c) The *Administrative Expense* charged to each *Member* is calculated by allocating the total *Administrative Expenses* required for the upcoming *Program Year* among the *Members* based on the payroll for each *Member*. This expense may be modified by experience at the discretion of the *Board of Directors*.
- (d) The training expense charged to each *Member* is calculated by allocating the total training expenses required for the upcoming *Program Year* among the

Members based on the payroll for each *Member*. This expense may be modified by experience at the discretion of the *Board of Directors*.

- (c) Payroll as of ~~September 30th~~ ~~December 31st~~ of the year preceding the commencement date of a new *Program Year*, inflated by no more than 5%, will be utilized in determining the *Deposit Contribution* calculation. Payroll shall be submitted for the four calendar year quarters using reported payroll on DE-9C payroll reports by February 15th of the new program year.

Formatted: Superscript

Commented [RK6]: We are proposing pushing this back one quarter so we can attempt to get actuarial studies and excess rates done and get a budget out in a more timely fashion.

2. EXPERIENCE MODIFICATION

- (a) Each *Member* may be evaluated each year for an experience modification credit or debit based on no more than the past six years of experience. At the discretion of the Board of Directors, all or a portion of the six years of experience may be used in the calculation of the experience modification factor.
- (b) The calculation of the credit or debit shall include the actual loss experience of each individual *Member* as it relates to the average loss experience of the group as a whole. The criteria which shall be used is the relationship of actual average loss experience over the period being rated as it relates to the average payroll for the same period.
- (c) The Board has the discretion to apply a credibility factor and to establish upper and lower limitations on the maximum and minimum experience modifications.

B. ADJUSTMENTS TO ACCOUNT BALANCES

1. ESTABLISHMENT OF THE LEVEL OF FUNDING

- (a) The confidence level used for determining the funding requirements of the PEPLP and the *Program Year Deposit Contributions* will be determined by the Administrator and approved by the *Board of Directors*; however, the confidence level shall not be lower than 70 percent or the amount needed to cover expected losses.
- (b) Interest rates for the type of investments utilized by the PEPLP may be used to determine the amount of funds necessary to meet the selected confidence level for the PEPLP, but such interest rate shall not exceed seven percent.
- (c) Reserves for each *Program Year* shall be actuarially determined and shall be sufficient to maintain the overall funding to meet the approved confidence level.

2. ASSESSMENTS

- (b) The PEPLP is not *actuarially sound* when the available reasonably estimable

reserves are less than the amount of reserves required at the expected confidence level, including expected interest earnings. Reserves are reasonably estimable on a *Program Year* when it is at least three years old.

- (c) If the PEPLP is not *actuarially sound*, the *Board of Directors* may, at its discretion, impose an *Assessment* against all *Members* participating in the deficient *Program Year(s)*. Each *Member's Assessment* shall be determined by the proportion which that *Member's Deposit Contribution* for that year relates to the total *Deposit Contribution* paid by all *Members* for that year.
- (d) If the PEPLP as a whole is *actuarially sound*, the *Board of Directors* may, at its sole discretion, assess the *Members* who participated in any *Program Year* that is not *actuarially sound*.
- (e) A program year or years that are not *actuarially sound* will be adjusted annually with the Retrospective Adjustment Process discussed in the next section.

3. RETROSPECTIVE ADJUSTMENTS

The Retrospective Adjustment Process defines the methodology by which program years that are a full five years old are adjusted annually. The Retrospective Adjustment Process is defined in ERMA's Financial Stability Plan, as approved by the *Board of Directors*, and appears in its entirety in Appendix A.

C. CLOSED PROGRAM YEARS

- 1. The *Board of Directors* may close a *Program Year* as described in Article I, B.
- 2. Upon closure of a *Program Year*, a final calculation of account balances shall be made as described in ERMA's Financial Stability Plan, specifically the Retrospective Adjustment Process, and found in Appendix A. If, however, a *Member* retains counsel other than the counsel assigned by the Litigation Manager, or, in the case of an appeal of the Litigation Manager's decision, a decision by the Board, the *Member* shall be solely responsible for that counsel's attorney's fees and costs, and the *Member* shall be deemed to have waived any rights to defense and indemnity coverage from *ERMA* for that particular litigation.
3. Assignment to defense counsel shall be made from the approved defense panel by the Litigation Manager after consultation with the *Member*. In the event the Litigation Manager assigns the case to a firm or individual other than the one expressly preferred by the *Member*, the Litigation Manager shall advise the *Member* in writing of the reasons for the change, and the *Member* shall have the right to appeal the decision to the *Board of Directors*. 4. **Claim** means, if not otherwise defined within the context of the Memorandum of Coverage, to be all demands for compensation by third party claimants against a covered party arising out of one occurrence.

APPENDIX A

RETROSPECTIVE ADJUSTMENTS

ERMA's Financial Stability Plan, Section II, defines the Retrospective Adjustment Process as follows:

As each program year is independent from the others, it is possible to assess each program's year's deficit, or surplus, independently on an annual basis as each program year reaches a certain maturity threshold.

The Retrospective Adjustment Process was approved unanimously at ERMA's February 22, 2008, Board of Directors meeting. This process calls for the retrospective adjustment (assessment for a deficit year or return of surplus contributions for a surplus year) for each program year that is a full five years old according to the following methodology:

- Each year at its ~~June~~May Board of Directors' meeting, the ERMA Board would formally retrospectively adjust a program year's retained earnings balance five full years after the inception of that program year and each year thereafter until the program year is closed (all claims have been settled, and no case or IBNR reserves remain).
- A deficit (in whole or part at the Board's discretion) would be assessed to increase the equity in each eligible program year to the expected confidence level.
- Alternatively, if an open program year is in a surplus position, the Board would consider returning surplus (in whole or part at the Board's discretion) for any equity amount that exceeds the 90% confidence level to allow for continuing claims development in future years.
- If a current program year not yet eligible to receive a retrospective adjustment is in a deficit position at any confidence level, the negative equity at that confidence level will be subtracted from the "Total Distribution Available" at that confidence level.
- If no IBNR remains in a year in which all claims are closed, the Board would consider returning surplus or levying an assessment to officially close out that year.

Additional considerations:

- It is possible for program years to re-open, in which case a later assessment is possible.
- In the event of an overall program surplus, an individual program year or multiple program years would not be adjusted via a return of surplus, unless the ERMA program as a whole remained funded at the 90% confidence level after the return of surplus.
- The current year March 31 financial statements will be utilized to determine each program year's retained earnings balance, and net assessments/net return of surplus (due to the possibility of several program years being adjusted) will be invoiced/released on or before June 30.

APPENDIX B

ADMINISTRATIVE MATTERS

**SUBJECT: Consideration of Amendment to the Contract for Administration,
Finance, and Litigation Management Services Agreement between
ERMA and Sedgwick
*Presented by Rob Kramer, Executive Director***

RECOMMENDATION: *Staff makes no recommendation on this item
as Sedgwick has a financial interest in the outcome.*

BACKGROUND AND STATUS:

Over the course of the last six months, the ERMA Executive Committee and Board of Directors have heard from Sedgwick regarding the relatively significant claims increase in the program over the course of the last couple of years.

Pursuant to these discussions, and in response to Sedgwick’s request for a pricing increase under Section 5 of the current agreement (for Administration, Litigation Management, and Financial Services), the following is an updated proposal from Sedgwick and answers to the Board of Directors questions regarding the initial proposal.

- **Current Contract Pricing:**
 - The current program year 2024/25 annual pricing is \$1,179,947.00.
 - This reflects an annual increase of 3.5% over 2023/24.
 - It also includes net new membership of 8 public agencies under various member pools with \$50,353.00 in fee contribution for 2024/25.
 - The CPI change for the calendar year 2024 over 2023 equates to approximately 3.1% or a projected fee increase in 2025/26 of \$35,398.00.
- **Claims Trends Since 2023/24 Contract Renewal:**
 - From January 2023 strategic planning to 2025 strategic planning, all claim metrics have increased dramatically and outpaced the fee escalators and new member increases referenced above:
 - Open cases increase >100% (140 to 300+)
 - New claims increase >30% (240 to 300+) over the prior two-year periods
 - Open litigated claims now >60 (64 at January 2025)
 - Average claimant age and case jurisdiction still under review

- Claims and Litigation Management (CLM) Resources and Staffing Plan:
 - Proposed CLM Staffing for the 2023/24 program year (and forward) was a full-time, dedicated ERMA litigation manager and litigation consultant, both supported by a litigation analyst (shared) and support from a claims manager (shared). These resources were committed as agreed.
 - Proposed CLM Staffing for the 2025/26 program year is a full-time, dedicated ERMA litigation manager, litigation consultant, and litigation analyst, with support from an additional litigation analyst (shared) and support from a claims manager (shared). Workload will be redistributed to allow for the litigation manager to concentrate primarily on litigated claims only.
- CLM Staffing Thresholds:
 - Sedgwick is proposing this staffing model is sufficient to meet total capacity for up to 500 total open cases (40%+ over current or ~3 years at current trend).
 - Litigation manager capacity is proposed to meet up to 100 open litigated claims (~60% increase or ~3+ years at current trend).
- Proposed Contract Pricing:
 - Pricing under the contract for 2025/26, without adjustment, is approximately \$1,215,345.00 or 3.1% over 2024/25.
 - Sedgwick is proposing an additional increase of 14.4% or \$175,000.00 based on the significant claims volume increases noted above. This would bring the total 2025/26 fee to \$1,390,345.00. The additional increase equates to approximately 1.3% of estimated member contributions in 2025/26.

Amendment #4 to the current contract has been prepared by Sedgwick, reviewed by ERMA Board Counsel, and is attached for the Board's consideration.

AMENDMENT THREE TO THE
AGREEMENT FOR ADMINISTRATIVE, LITIGATION
MANAGEMENT, AND FINANCIAL SERVICES

This Amendment Three to that certain Agreement for Administrative, Litigation Management and Financial Services, effective as of July 1, 2023 (the "Agreement"), by and between the Employment Risk Management Authority ("ERMA") and Sedgwick Claims Management Services, Inc.

WITNESSETH

WHEREAS, the Agreement at Section 5, Paragraph A, Annual Base Contract Price (ABCP), provides that Sedgwick hereby agrees to perform the services set forth in the agreement for all five years of the Agreement for an "Annual Base Contract Price" (ABCP);

WHEREAS, the ABCP for the fiscal year 2024/25 was set at \$1,179,947 and was to increase by an annual inflator of 3.1% per program year pursuant to Section 5, Paragraph C. plus any adjustments to account for new or withdrawing members to the program as outlined in Section 6;

WHEREAS, beginning with the fiscal year 2025/26, ERMA and Sedgwick have agreed to an additional \$175,000 increase to the newly calculated ABCP of \$1,215,345 as of July 1, 2025 for a new ABCB in 2025/26 of \$1,390,345 in order to further compensate Sedgwick for an increase in claims volume for the program;

WHEREAS, Sedgwick agrees this adjustment is sufficient to meet total capacity for up to 500 total open cases. Sedgwick further agrees this adjustment is sufficient to meet capacity for up to 100 litigated claims;

NOW, THEREFORE, in consideration of the mutual promises contained herein, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties agree as follows:

1. For fiscal year 2025/26, the ABCP shall be restated at \$1,390,345 in order to further compensate Sedgwick for an increase in claims volume for the program. This provision is incorporated by reference as though fully set forth.

All other terms of the Agreement shall remain in full force and effect and are not modified by this Amendment, except as expressly set forth herein. Any conflicts between this amendment and the original Agreement, including any prior executed amendments, shall be superseded by the terms provided herein.

TRAINING & LOSS PREVENTION MATTERS

SUBJECT: 2024/25 Training Update and Report from the Ad Hoc Training Committee
Presented by Rob Kramer, Executive Director

RECOMMENDATION: *None.*

BACKGROUND AND STATUS:

Training Compliance:

With respect to training compliance, the Memorandum of Coverage (MOC), Section VII, Conditions, Article 1 (F), requires that all covered parties within ERMA must provide proof of compliance with training, as outlined in California Government Code §12950.1. These trainings consist of:

- 1-hour SB 1343-compliant training for non-supervisory employees
- 2-hour AB 1825-compliant training for supervisory employees

Failure to maintain substantial compliance with training mandates may result in an increased SIR, as referenced in the MOC. In January 2023, a self-certification survey was launched, allowing member agencies to report compliance with mandated training. The following chart illustrates the response rate within each ERMA primary member:

JPA	Total Agencies	Responses Received
BCJPIA	19	3
CaITIP	10	4
CCCHA	1	1
CIRA	55	16
CSJVRMA	43	14
Hayward	1	0
MBASIA	10	2
MPA	20	9
OHA	1	0
PERMA	25	9
PLAN	9	1
SCORE	13	6
VCJPA	31	7

Training & Risk Management Program:

Beginning July 1, 2020, ERMA launched the Training & Risk Management Program, wherein members may seek reimbursement of up to \$2,500 annually for eligible employment-related training and loss control expenditures. During the 2023/24 program year, members requested a total of \$107,958.09 in reimbursements.

To date, members have requested \$57,265.00 in reimbursements for the 2024/25 program year.

These reimbursements assist member agencies in offsetting the costs associated with activities such as mandated training, updates to employment policies, and attendance at various employment-related conferences and other events.

Employment Practices Policy Review Survey:

At the last ERMA Annual Workshop, the Board of Directors established goals and objectives related to ensuring all ERMA members are provided support related to the review and update of their agency's Employment Practices Policies.

Staff, along with iLearning Engines and Liebert Cassidy Whitmore, have been working diligently to accomplish this initiative by the end of the second quarter of 2025. To date, a total of one hundred and thirty (130) agencies have completed the survey, sixty-nine (69) did not participate, and forty-three (43) are in progress. We are working to help agencies that have incomplete surveys submit them

Alameda County Mosquito Abatement District and Marin/Sonoma MVCD (VCJPA) notified us they were not participating in the survey since they were in the process of reviewing and updating their policies internally (these two agencies are a part of the sixty-nine (69) above that did not participate).

Report from the Ad Hoc Training Committee

Following the direction of the Board at the January 2025 annual workshop, the Ad Hoc Training Committee met on May 22, 2025, to discuss the Elected Official Training initiative, the Collective Risk Management Team concept, and leadership training provided by Gerry Preciado. Staff will provide an update to the Board.

SUBJECT: Collective Risk Management Team Concept and Training Initiatives

THE COLLECTIVE RISK MANAGEMENT TEAM (CRMT)

When ERMA was initially formed, along with the attorney firms of Liebert Cassidy Whitmore and Jackson Lewis, ERMA was partnered with Labor Consultants of America, aka The AGOS Group. This firm later became (in some form) iLearning Engines which ERMA remains partnered with today.

One of the concepts ERMA implemented and embraced from the start was the Collective Risk Management Team (CRMT). In short, it was a “team” approach to managing workplace wrongdoing. It recommended having each ERMA member select and train multiple CRMT “Contacts” that would meet to manage, investigate, and determine the next steps in initial reports of workplace wrongdoing made to an ERMA member.

Over the years, with turnover, and a change in focus to have most reports investigated by outside investigators, training and continued effective utilization of the CRMT concept has waned.

ERMA staff, in conjunction with our attorney firm partners and based on feedback from the ERMA Board of Directors, met recently to discuss the future of the CRMT concept and needed refresher training.

The service partner team will provide its thoughts to the Committee at the meeting, but for various reasons, the team is recommending that ERMA **no longer focus on the CRMT concept** going forward.

Following discussion with the Committee, if this direction is agreed upon, staff will develop a road map for de-emphasizing and potentially even eliminating reference to the CRMT and its training modules in the ERMA risk management program and curriculum.

ERMA Training Initiatives

ERMA is currently working to schedule various “in-person” Elected Officials Training. This training consists of two parts:

1. Sexual Harassment Training - which is mandated by the State of CA on a biennial basis
2. Leadership Training - to educate officials on their roles as elected officials and develop strategies for effective governance.

ERMA has had several of these training sessions to date (see below), and they have generally been well received. However, they have been difficult to set up logistically, and attendance at the regional sessions have not been what we had hoped for. ERMA staff will discuss with the Committee some thoughts on how this initiative, as well as the Leadership Training initiative with 34th Street Consulting (Gerry Preciado), might be adjusted to accomplish better outreach to the members as well as efficient utilization of ERMA resources.

WORKSHOP ANNOUNCEMENT

Elected Officials - Best Practices in Public Service – Comprehensive Two-Part Training

Elected and appointed officials and members of legislative bodies play a critically important role in their service to the public. Because of this, they are held to high standards and expectations under California law. To ensure these standards are met and to promote a culture of professionalism and respect, **the Government Code requires at least two hours of harassment prevention training and education within the first six months of taking office or commencing employment, then again, every two years.**

The Employment Risk Management Authority (ERMA), in partnership with renowned firms Liebert Cassidy Whitmore and Jackson Lewis, is thrilled to introduce a new initiative focused on training and educating all elected and appointed officials within the ERMA membership. This will be a comprehensive two-part training, totaling three hours. ERMA staff is planning sixteen (16) regional trainings across the state. This initiative is a testament to our commitment to providing valuable loss prevention services to our members.

Part I of this interactive training will satisfy the two hours of sexual harassment prevention training required to be provided to all local agency officials or other designated employees by a local agency; fulfilling the statutory requirements for preventing harassment, discrimination, and retaliation in public agencies.

Part II will build on the legal requirements covered in the first two sessions and provide training on developing and maintaining best practices for acting in the best interest of the public. Using case studies and discussion, the training will enhance critical “soft skills” of leadership, including confidentiality, courtesy, transparency, and fairness. This part of the training will provide best practices for public service so that elected officials and members of legislative bodies can ethically, fairly, and effectively serve the public.

Who Should Attend?

Members of a Legislative Body, Elected & Appointed Officials, and employees designated by their employer.

MCLE Credit

LCW and Jackson Lewis are approved providers for Minimum Continuing Legal Education (MCLE) Credit. Attorneys attending this course will receive three (3) hours of MCLE credit. An MCLE sign-in sheet and certificate will be available at the workshop.

Re: Employment Risk Management Authority - Proposal for Services and Collaboration

Dear Rob:

We appreciate the opportunity to partner with the Employment Risk Management Authority (ERMA) in support of its objectives to reduce EPL risk exposures and provide collaborative consulting support for its members. In our experience, working with ERMA members and other JPAs, we believe a combination of focused and tailored training and other consulting services will positively contribute to loss prevention, loss mitigation, and the long-term sustainability of ERMA for years to come.

Customized and Tailored Training

In our conversation with the ERMA team, we discussed providing training that supports your members in a variety of areas. Some of these areas include leadership development, organizational development, conflict resolution, improving workplace relationships, and compliance training (e.g., AB1825 and AB1234). We have attached a catalog of services with more detail on the training sessions focused on professional development and other services for managing the human asset.

In addition, because we know that effective leaders are by default great EPL risk managers, we have developed a series of leadership development sessions for current and aspiring leaders. Through these sessions we not only meet the needs of current leadership, we are also a resource for the succession planning objectives of your members. As stated previously, all of our training sessions are tailored to the needs of the agency or member as needed. The descriptions below of our leadership development sessions are meant to serve as a guide to begin the conversation, but based on need, can be adjusted to fit the needs of the member.

Successful Workplace Cultures: Communication Expectations & Conflict Resolution

Many agencies find themselves in situations of having to deal with workplace behaviors that are unacceptable. Rude behaviors, employees angry with one another, or a lack of civility can have an adverse impact on workplace cultures. Sometimes the problem is what we say, other times it is how we say it, our timing, or it's a lack of self-awareness on how our conduct adversely impacts our coworkers. Setting workplace behavioral expectations is the foundation for preventing such conduct at work. This session focuses on setting expectations in the areas of communication, conflict resolution, emotional

intelligence, and the importance of consistently maintaining professional and civil behavior. Topics covered: Foundations of Effective Communication; Impact of Nonverbal Communication; The origins of Conflict; Removing Wedges and Resolving Conflict; Self-Awareness and Self-Regulation. All participants will leave this session with the tools necessary to successfully interact and engage with one another. Conflict and misunderstandings will still occur, but each participant will leave with the tools necessary to respond to the situation and not let conflict define the team or the culture.

The Wedge: A Simple Metaphor to Improve All of Your Workplace Relationships

The difference between great teams and dysfunctional teams is not the absence of conflict, it is the collective ability to not let the conflict define the team. When harmful conflict happens the byproduct is wedges driven into relationships. Wedges, left unattended, are the catalysts that destroy teams, departments, and organizations. Each of us needs a well-developed Human Interaction Toolbelt™ (Toolbelt™) with all the skills necessary to successfully engage one another. This session will focus on helping participants sharpen some of those tools and obtain a Wedge Remover™ to add to their Toolbelt™. When team members use their Wedge Remover™ and encourage others to do likewise, they can be assured that their teams will be characterized by greater harmony, productivity, and effectiveness.

The Unwritten Rules of Leadership: Leadership Fundamentals

The unspoken rules of leadership are the foundational principles of leadership that are not always explicitly taught but are essential for success. By embracing these principles and making them an integral part of your leadership approach, you can magnify your impact and unleash your team's potential. The session will focus on understanding implied rules like: emotions matter, leading is a service, vision matters, balance and burnout, inclusion and adaptability. This session is critical for all aspiring and current leaders, the content discussed, strategies learned, and scenarios practiced will provide relevant job training for every role.

Harnessing the Power to Lead: Building and Rebuilding Trust

This session focuses on the challenges of gaining and maintaining trust, as well as the ability to rebuild trust when necessary. This session will also focus on how trust is a precondition to organizational flexibility and adaptability. When employees focus on building trust, they create greater efficiency within the organization, and develop the fortitude and framework to make the difficult decisions and generate buy-in from leadership. Not only does this help within the organization, it also helps create more buy-in from the community which leads to more support, increased unity and greater

success for all. There are three fundamental components to developing trust: building great relationships, utilizing good judgment, and being consistent and accountable. By discussing concrete strategies in these three areas, participants will be able to successfully navigate tough conversations with coworkers, earn the confidence of their colleagues and community stakeholders, and be viewed as a trusted team member by the organization's top leaders.

Maxims of Change: Four Keys to Positive Sustained Change

Shifting a culture must be addressed at the foundational level for it to have lasting effect. Issues plaguing a workplace culture are removed at the root level to achieve sustained change. Anything less is a temporary band-aid approach. Creating sustained change in relationships and workplace culture requires use of these four maxims of change.

1. Walk the Talk - Credibility Maxim
2. Encourage Authentic Participation - Buy-In Maxim
3. Champion the Cause - Momentum Maxim
4. Encourage Accountability - Morale Maxim

Any organization can achieve the change objectives they desire. This session will empower all participants to understand how to achieve sustained change to a more positive workplace culture, a culture defined by support and teamwork, for a culture of belonging.

The Unwritten Rules of Leadership: Leadership Fundamentals

The unspoken rules of leadership are the foundational principles of leadership that are not always explicitly taught but are essential for success. By embracing these principles and making them an integral part of your leadership approach, you can magnify your impact and unleash your team's potential. The session will focus on understanding implied rules like: emotions matter, leading is a service, vision matters, balance and burnout, inclusion and adaptability. This session is critical for all aspiring and current leaders, the content discussed, strategies learned, and scenarios practiced will provide relevant job training for every role.

Again, for additional descriptions of training sessions please review the attached catalog.

Conflict Resolution and EPL Risk Assessment Consulting

In addition to the training and professional development we offer, our consulting services can support ERMA in two ways. We recommend utilizing our conflict resolution services and EPL risk assessment services for ERMA loss prevention.

Our conflict resolution services are well known to many ERMA members. When addressing existing conflicts in any department, we engage all members of the team and any other stakeholders, to properly identify the source of the conflict creating behavior. We develop and tailor solutions in collaboration with the leadership team, and then implement the same. This Wedge Removal process is identified in greater detail in the attached supporting documents.

Our EPL risk assessment services are designed to work in collaboration with the ERMA Litigation Manager Stacey Sullivan, and the standards set by the ERMA Board of Directors. If an ERMA member experiences a triggering threshold based on a number of claims or losses impacting the pool, a risk assessment would be required for the member. The risk assessment would entail a review of the member's adopted human resource policies and procedures, a review of the member's training regiment, an assessment of the leadership team's understanding and ability to implement leadership best practices. This includes the management's understanding of how to address issues and concerns reported to them by employees.

The Board would be provided with a report on the assessment for their review and consideration. This gives the Board an opportunity to consider remedial measures to mitigate ongoing EPL risks at the member agency.

Attached for your review we have attached the following documents: 34th Street Catalog of Services (with pricing sheet), and the personal bios for myself and Jacob Houghton.

LITIGATION MANAGEMENT

SUBJECT: Update Regarding Investigators Forum
Presented by Rob Kramer, Executive Director

RECOMMENDATION: *None.*

BACKGROUND AND STATUS:

The first-ever ERMA Investigators Forum was held on Tuesday, March 18, 2025, in the City of Burlingame. ERMA had thirty-six (36) registrants and ultimately twenty-seven (27) in attendance at the forum.

The forum was a combination of an overview and current status of the ERMA program, training from two of the defense panel members and one of the investigator panel members and an open forum where feedback was sought and received from those in attendance regarding how best to further collaborate and how to improve the program moving forward.

We received overwhelming positive feedback from the participants and confirmation that this is something that should be planned regularly.
